

## Letter of Introduction

UA Global LLC is an American company that advises companies globally on a wide range of business interests, specifically logistics in the oil and gas industry.

Our company provides consulting services for the preparation and signing of a **direct contract** with PJSC ROSNEFT for the purchase of oil and oil products.

- We provide assistance in filling out an application and collecting the necessary documentation for the conclusion of contracts;
- As soon as possible, we agree on all the conditions for the conclusion of the contract;
- The application is considered when purchasing at least 50,000 metric tons per month (a corporate discount is provided);
- Maximum corporate discount is provided for purchases of 300,000 metric tons per month and higher;
- The contract minimum terms is for one (1) year;

Upon interest, we are ready to provide all necessary and detailed information.

PJSC ROSNEFT is the leader in Russian oil refining. The continuous development of the refining and marketing segment is one of Rosneft's strategic objectives. Simply put, the main objective of Rosneft is to increase the sales of high-quality products with high added value directly to the end user. To achieve this goal, Rosneft is actively upgrading and expanding its refining capacity and distribution network.

Rosneft's refinery units in the Russian Federation include thirteen (13) large oil refineries located in key regions of Russia.

The product basket is a wide range of items which can be generally divided into the target products and by-products of the petrochemical industry. These products include:

- Crude oil
- Light oil products (**Jet A-1, EN-590, Marine fuel**)
- Dark oil products
- Bitumen
- Lubricants
- Paraffin-wax products
- Additives/oil residuum/Extracts and others

For immediate action, please contact me and commence completion of the attached application.

Best regards,  
Igor Shulyak
